## Assessment of Authentic Performance in School Mathematics

This book is the result of a conference sponsored by the Educational Testing Service and the University of Wisconsin's National Center for Research in Mathematical Sciences Education. The purpose of the conference was to facilitate the work of a group of scholars whose interests included the assessment of higher-order understandings and processes in foundation-level (pre-high school) mathematics. Discussions focused on such issues as the purposes of assessment, guidelines for producing and scoring "real-life" assessment activities, and the meanings of such terms as "deeper and higher-order understanding," "cognitive objectives," and "authentic mathematical activities."

Assessment was viewed as a critical component of complex, dynamic, and continually adapting educational systems. During the time that the chapters in this book were being written, sweeping changes in mathematics education were being initiated in response to powerful recent advances in technology, cognitive psychology, and mathematics, as well as to numerous public demands for educational reform. These changes have already resulted in significant reappraisals of what it means to understand mathematics, of the nature of mathematics teaching and learning, and of the real-life situations in which mathematics is useful. The challenge was to pursue assessment-related initiatives that are systematically valid, in the sense that they work to complement and enhance other improvements in the educational system rather than act as an impediment to badly needed curriculum reforms.

To address these issues, most chapters in this book focus on clarifying and articulating the goals of assessment and instruction, and they stress the content of assessment above its mode of delivery. Computer- or portfolio-based assessments are interpreted as means to ends, not as ends in themselves. Assessment is conceived as an ongoing documentation process, seamless with instruction, whose quality hinges upon its ability to provide complete and appropriate information as needed to inform priorities in instructional decision making. This book tackles some of the most complicated issues related to assessment, and it offers fresh perspectives from leaders in the field--with the hope that the ultimate consumer in the instruction/assessment enterprise, the individual student, will reclaim his or her potential for self-directed mathematics learning.

### From reader reviews:

#### **Christian Robbins:**

This Assessment of Authentic Performance in School Mathematics book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book will be information inside this book incredible fresh, you will get information which is getting deeper a person read a lot of information you will get. That Assessment of Authentic Performance in School Mathematics without we comprehend teach the one who examining it become critical in imagining and analyzing. Don't always be worry Assessment of Authentic Performance in School Mathematics can bring any time you are and not make your carrier space or bookshelves' become full because you can have it in your lovely laptop even cell phone. This Assessment of Authentic Performance in School Mathematics having excellent arrangement in word along with layout, so you will not sense uninterested in reading.

#### **Donald Cauley:**

Typically the book Assessment of Authentic Performance in School Mathematics has a lot details on it. So when you make sure to read this book you can get a lot of gain. The book was published by the very famous author. The writer makes some research just before write this book. This book very easy to read you may get the point easily after looking over this book.

#### **James Collins:**

This Assessment of Authentic Performance in School Mathematics is new way for you who has attention to look for some information because it relief your hunger details. Getting deeper you in it getting knowledge more you know or else you who still having bit of digest in reading this Assessment of Authentic Performance in School Mathematics can be the light food to suit your needs because the information inside this specific book is easy to get through anyone. These books create itself in the form which can be reachable by anyone, yes I mean in the e-book web form. People who think that in guide form make them feel tired even dizzy this guide is the answer. So there is no in reading a reserve especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss this! Just read this e-book style for your better life in addition to knowledge.

#### **Helen Butts:**

Do you like reading a publication? Confuse to looking for your chosen book? Or your book has been rare? Why so many issue for the book? But any kind of people feel that they enjoy regarding reading. Some people likes looking at, not only science book but also novel and Assessment of Authentic Performance in School Mathematics or perhaps others sources were given know-how for you. After you know how the great a book, you feel need to read more and more. Science e-book was created for teacher or students especially. Those publications are helping them to increase their knowledge. In additional case, beside science guide, any other book likes Assessment of Authentic Performance in School Mathematics to make your spare time a lot more colorful. Many types of book like here.
