Introduction to Modern Time Series Analysis

Gebhard Kirchgässner, Jürgen Wolters

Introduction to Modern Time Series Analysis Gebhard Kirchgässner, Jürgen Wolters

This book contains the most important approaches to analyze time series which may be stationary or nonstationary. It starts with modeling and forecasting univariate time series and then presents Granger causality tests and vector autoregressive models for multiple stationary time series. It also covers modeling volatilities of financial time series with autoregressive conditional heteroskedastic models.
