Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C#

Carmen Au, Ray Rischpater

This 200 page revised edition of *Microsoft Mapping* includes the latest details about SQL Server 2014 and the new 3D and Streetside-capable map control for Windows 10 applications. It contains updated chapters on Microsoft Azure and Power Map for Excel plus a new chapter on Bing Maps for Universal Windows. The book tells a story, from beginning to end, of planning and deploying a single geospatial application built using Microsoft technologies from end-to-end.

Readers are expected to have basic familiarity with the fundamentals of developing for Microsoft platforms (some understanding of basic SQL, C#, .NET, and WCF); as readers work through the book they will build on their existing skills so that they will be able to deploy geospatial applications for social networking, data collection, enterprise management, or other purposes.

Microsoft Mapping Second Edition provides:

- The only full book for developers who want to create location-aware apps using the Windows 10 platform
- Fully working code samples that show the concepts in use with ASP.NET 4.5 and Windows 10.
- Complete solutions to the common problems of geospatial development: visualization, hosting and localization of services are all explained.
- Demonstrates how the Bing Maps API can be connected to the Azure Cloud in order to provide a stand-alone mapping bolt-on with little additional up-front cost and great reliability.
- Unique

Coverage of the new Windows 10 Bing Maps control, which supports viewing Streetside and aerial data.

From reader reviews:

Randy Johnson:What do you concerning book? It is not important together with you? Or just adding material when you require something to explain what your own problem? How about your time? Or are you busy person? If you don't have spare time to do others business, it is make you feel bored faster. And you have extra time? What did you do? Everybody has many questions above. They must answer that question simply because just their can do that will. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on pre-school until university need this Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C# to read.

Louise Schmidt:Beside this kind of Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C# in your phone, it may give you a way to get nearer to the new knowledge or info. The information and the knowledge you will got here is fresh from the oven so don't possibly be worry if you feel like an older people live in narrow village. It is good thing to have Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C# because this book offers for you readable information. Do you at times have book but you rarely get what it's interesting features of. Oh come on, that would not happen if you have this within your hand. The Enjoyable agreement here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss the item? Find this book in addition to read it from at this point!

Margaret Calderon:Do you like reading a e-book? Confuse to looking for your chosen book? Or your book was rare? Why so many issue for the book? But virtually any people feel that they enjoy intended for reading. Some people likes looking at, not only science book but also novel and Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C# or perhaps others sources were given understanding for you. After you know how the great a book, you feel desire to read more and more. Science publication was created for teacher or perhaps students especially. Those guides are helping them to include their knowledge. In different case, beside science publication, any other book likes Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C# to make your spare time much more colorful. Many types of book like this.

Raymond Dahms:As a student exactly feel bored to help reading. If their teacher expected them to go to the library or to make summary for some book, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Microsoft Mapping Second Edition: Geospatial Development in Windows 10 with Bing Maps and C# can make you truly feel more interested to read.
