When we are no longer able to change a situation, we are challenged to change ourselves." Some embrace it and thrive; others fight it every step of the way. Change, though, is invariably the beginning point for transformation. Church leaders are expected not only to advocate transformation but navigate, with an encouraging smile, the resultant difficulties. While many books promote the need for transformation, few offer leaders hope, guidance and inspiration to persevere in the midst of (and beyond) the struggle. Hugh Ballou brings together a collection of stories from leaders who have lived through personal or institutional upheavals and survived. These accounts demonstrate how big changes affected efforts as diverse as a children's ministry program to a Hollywood movie.
