This essential text provides a strong foundation to accountants by offering concise, user-friendly coverage of core topics. Newly updated and revised, this eleventh edition has been reorganized to strengthen its flexibility. Expanded coverage is presented on Sarbanes-Oxley, Cobit Version 4, XBRL, and of risk and governance. *Case in Point* sections highlight how the concepts are applied in the field. Multiple choice questions at the end of the chapters help reinforce the material. An updated database chapter also provides hands-on instruction in Microsoft Access. Accountants will be able to use this information to effectively utilize the right information system for their needs.
