P. M. S. Hacker

Insight and Illusion: Themes in the Philosophy of Wittgenstein P. M. S. Hacker

Since the first publication of *Insight and Illusion* in 1972, a wealth of Wittgenstein's writings have become accessible. Accordingly, in this edition Professor Hacker has rewritten six of his eleven original chapters and revised the others to incorporate the new abundant material. *Insight and Illusion* now fully clarifies the historical backgrounds of Wittgenstein's highly different masterpieces, the *Tractatus* and the *Investigations*, and traces the evolution of Wittgenstein's thought. Hacker explains all of Wittgenstein's writings in detail, focusing on his critique of metaphysics, his famous "private language argument," and his account of self-consciousness.
