Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools

Sue Fox, Liz Surtees

Mathematics is a core subject and using and applying mathematics in problem solving activities is crucial in enabling children to use their knowledge and skills in a range of situations. Mathematics Across the Curriculum shows how to teach mathematical concepts through different subjects and discussing the reasoning and research behind using problem solving and investigation teaching techniques. Best practice for planning and assessment, classroom organisation and practice, and use of resources are all discussed, with clear links to recent research and government standards and initiatives. Case studies from practicing teachers enable readers to easily relate the theoretical information to their classroom and teaching.

Mathematics Across the Curriculum is essential reading for all trainee and newly qualified teachers seeking to teach engaging, inspiring and challenging mathematics lessons. It will also be a useful resource for established teachers embarking on their Masters in Teaching and Learning (MTL).

From reader reviews:

Frances Norman:

In this 21st centuries, people become competitive in every single way. By being competitive currently, people have do something to make these survives, being in the middle of the crowded place and notice by surrounding. One thing that at times many people have underestimated it for a while is reading. Yep, by reading a guide your ability to survive boost then having chance to remain than other is high. In your case who want to start reading a new book, we give you that Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools book as starter and daily reading e-book. Why, because this book is more than just a book.

Juan Moses:

The book untitled Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools is the publication that recommended to you you just read. You can see the quality of the reserve content that will be shown to you. The language that creator use to explained their way of doing something is easily to understand. The author was did a lot of exploration when write the book, so the information that they share to you personally is absolutely accurate. You also will get the e-book of Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools from the publisher to make you more enjoy free time.

Gloria Lockwood:

Many people spending their time period by playing outside having friends, fun activity along with family or just watching TV the entire day. You can have new activity to spend your whole day by reading a book. Ugh, do you consider reading a book really can hard because you have to take the book everywhere? It alright you can have the e-book, delivering everywhere you want in your Smartphone. Like Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools which is having the e-book version. So , why not try out this book? Let's observe.

Carla Helton:

As a pupil exactly feel bored for you to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just little students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring and can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools can make you experience more interested to read.
