Flatulence ... male nudity ... abortion ... masturbation: these are just a few of the taboo topics in the United States. What do culturally enforced silences about certain subjects say about our society—and our latent fears? This work provides a broad yet detailed overview of popular culture's most avoided topics to explain why they remain off-limits and examines how they are presented in contemporary media—or, in many cases, delicately explored using euphemism and innuendo. The author offers fascinating, in-depth analysis of the meaning behind these portrayals of a variety of both mundane and provocative taboos, and identifies how new television programs, films, and advertising campaigns intentionally violate longstanding cultural taboos to gain an edge in the marketplace.
