## Perspectives on Play: Learning for Life

This brand new text breaks the mould of books on the subject of play currently on the market. It explores, debates and further develops the theory of play, relating cutting-edge theory to examples of practice, taken from a broad range of multi-disciplinary perspectives.

Each author brings their own perspective to the subject, based on rich and diverse experience, examining play-based activities from a wide variety of settings: the classroom, the playground, the home and local community.

Each chapter is illustrated throughout with observation notes, case studies, interviews and discussions, encouraging you not only to critically evaluate current research but to reflect on ways in which you could develop and improve your own practice.

*Perspectives on Play* will be an invaluable resource for any student studying within childhood studies, playwork programmes or training to teach at early years or primary level. The book is also ideal for early years, primary and play practitioners.
