Practical Modern SCADA Protocols: DNP3, 60870.5 and Related Systems (IDC Technology) Gordon Clarke CP Eng BEng MBA, Deon Reynders Pr Eng BSc (ElecEng) (Hons) MBA

SCADA (Supervisory Control and Data Acquisition) systems are at the heart of the modern industrial enterprise ranging from mining plants, water and electrical utility installations to oil and gas plants. In a market that is crowded with high-level monographs and reference guides, more practical information for professional engineers is required. This book covers the essentials of SCADA communication systems focussing on DNP3, the IEC 60870.5 standard and other new developments in this area. It commences with a brief review of the fundamentals of SCADA systems' hardware, software and the communications systems (such as RS-232, RS-485, Ethernet and TCP/IP) that connect the SCADA Modules together. A solid review is then done on the DNP3 and IEC 60870.5 protocols where its features, message structure, practical benefits and applications are discussed. This book provides you with the knowledge to design your next SCADA system more effectively with a focus on using the latest communications technologies available.

- * Covers the essentials of SCADA communication systems and other new developments in this area
- * Covers a wide range of specialist networking topics and other topics ideal for practicing engineers and technicians looking to further and develop their knowledge of the subject
- * Extremely timely subject as the industry has made a strong movement towards standard protocols in modern SCADA communications systems

From reader reviews:

Bob Bartlett:

Book will be written, printed, or highlighted for everything. You can recognize everything you want by a publication. Book has a different type. As you may know that book is important point to bring us around the world. Beside that you can your reading talent was fluently. A e-book Practical Modern SCADA Protocols: DNP3, 60870.5 and Related Systems (IDC Technology) will make you to become smarter. You can feel much more confidence if you can know about everything. But some of you think that open or reading a book make you bored. It isn't make you fun. Why they are often thought like that? Have you seeking best book or suitable book with you?

Elizabeth Brown:

What do you think of book? It is just for students because they are still students or the idea for all people in the world, what the best subject for that? Merely you can be answered for that concern above. Every person has different personality and hobby per other. Don't to be pressured someone or something that they don't wish do that. You must know how great and important the book Practical Modern SCADA Protocols: DNP3, 60870.5 and Related Systems (IDC Technology). All type of book would you see on many options. You can look for the internet resources or other social media.

Perla Baxter:

The reserve with title Practical Modern SCADA Protocols: DNP3, 60870.5 and Related Systems (IDC Technology) has lot of information that you can learn it. You can get a lot of advantage after read this book. This kind of book exist new know-how the information that exist in this guide represented the condition of the world right now. That is important to yo7u to find out how the improvement of the world. That book will bring you in new era of the internationalization. You can read the e-book on your smart phone, so you can read it anywhere you want.

Ralph Scott:

Beside that Practical Modern SCADA Protocols: DNP3, 60870.5 and Related Systems (IDC Technology) in your phone, it can give you a way to get more close to the new knowledge or information. The information and the knowledge you will got here is fresh from your oven so don't become worry if you feel like an outdated people live in narrow town. It is good thing to have Practical Modern SCADA Protocols: DNP3, 60870.5 and Related Systems (IDC Technology) because this book offers to your account readable information. Do you oftentimes have book but you rarely get what it's interesting features of. Oh come on, that wil happen if you have this in your hand. The Enjoyable blend here cannot be questionable, similar to treasuring beautiful island. So do you still want to miss the idea? Find this book as well as read it from at this point!
