**Reading Architectural Working Drawings: Residential and Light Construction** Edward J. Muller, Philip A. Grau III

**For courses in Architectural Drawing/Design, and Residential Design and Construction.**

Unique in coverage, this text-workbook introduces concepts essential to a basic, introductory understanding of residential and light construction—drawing, mathematics, geometry, terminology, materials, systems—while providing *hands-on experience* in reading architectural working drawings. With updated information to reflect the most current changes in the industry, the Sixth Edition enables students to further improve their communication skills when dealing with the technical information found in construction documents.
