New Treehouses of the World Pete Nelson

Since the publication of *Treehouses of the World*, the community of treehouse builders has grown tremendously, and many more innovative treehouses have been built around the world. In *New Treehouses of the World*, world-renowned treehouse designer and builder Pete Nelson takes readers on an exciting, international tour of more than 35 new treehouses that reveal how treehouses are designed, constructed, and appreciated in a wide array of cultures and settings.

Both beautifully photographed and thoughtfully written by Pete Nelson, *New Treehouses of the World* documents Nelson's travels, discoveries, and epiphanies, and explores the ever-growing new frontier of arboreal architecture. The message that Nelson promotes is simple: As sustainable living issues stand poised to become the most important challenges facing the post-millennial age, the positive power and goodwill that a simple treehouse engenders is of greater importance than ever before.
