When both old and new secrets are uncovered at a burial site, the timetable of a madman moves up. Old secrets were buried in the beautiful mountain meadow.

It was Jamie Taylor and her dog's job to uncover them. Trouble was they dug up some new secrets as well. While some families would find closure, others would soon find their lives ripped apart.

Assistant Special Agent in Charge Nicholas Grant becomes embroiled in the case while coming to terms with his own demons.

A madman watches from the distance while officials expose his clandestine playground - his private playground - much sooner than he planned. But with any luck, not soon enough.
