Studies show that students with a larger vocabulary are more successful in all areas of their scholastic careers. Reading comprehension is an essential skill in today's competitive world. It has been argued that promoting independent daily reading sessions of 10-20 minutes with children is highly important for critical thinking (Krashen, 1993). It has also been observed that teaching children the context surrounding a word's definition is an appropriate strategy for understanding why a word has its meaning (Kuhn and Stahl, 1998).
