**Loose Leaf Version for Essentials of World Regional Geography** George White, Elizabeth Chacko, Joseph Dymond, Michael Bradshaw

*Essentials of World Regional Geography, 3e* gives readers an approach that combines fundamental geographical elements, internal regional diversity, and contemporary issues. This approach allows serious discussion of cultural and environmental issues, as well as political and economic issues. White *Essentials of World Regional Geography, 3e* encourages students to consider what it means to be part of a global community and to develop their geographical understandings of world events.

*Essentials of World Regional Geography* has chapter openings with a physical features map of the region, which includes short accounts of people or events to provide a personal flavor of the region, an outline of the chapter contents, and a short section placing the region in its wider global context. Each regional chapter is consistently organized by three sections. The first section summarizes the distinctive physical and human geographies of the region; the second section explores the internal diversity of the region at subregional, selected country, and local levels. The third section focuses on a selection of contemporary issues that are important to the people of each region and frequently have implications for the rest of the world. Each regional chapter follows the same framework, allowing students to easily make comparisons from one world region to the next.
