Nazism in Central Germany: The Brownshirts in 'Red' Saxony (Monographs in German Literature)

Claus-Christian W. Szejnmann

Most studies on the spread of Nazism in German society before and after 1933 concentrate on the country's western parts. As a result, so the author claims, our overall picture of the situation has been distorted since the eastern areas contained a substantial portion of the population. Neglecting them means that all generalizations about the Nazi period require further testing. This first comprehensive study of Saxony therefore fills a large gap, also in light of the fact that Saxony was one of the most industrialized German regions. It deals with problems of continuity and change in German society during three distinct phases: constitutional monarchy, parliamentary democracy, and dictatorship. The author shows convincingly that it was deep-rooted local traditions that determined the success or failure of Nazism among the local population.
