In "One World, Ready or Not, " a national bestseller, Wiliam Greider focuses his incomparable reportorial skills on exposing the myths and the realities of the global econmy in terms of human struggle. Drawing on in-depth investigations and interviews with factory workers, corporate CEOs, economists and government officials around the world, he contends that the global economy is sowing "creative destruction" everywhere: while making possible great accumulations of wealth, it is also reviving forms of human exploitation that characterized industry one hundred years ago.
