## **Solar Module Packaging: Polymeric Requirements and Selection** Michelle Poliskie

While global demand for photovoltaic (PV) modules has increased approximately 45 percent per year over the past decade, PV modules must be durable and inexpensive to compete with traditional energy resources. Often overlooked as a means to improve solar technology, polymer packaging is not only the key to protecting fragile solar cells from environmental factors, but is also the critical path for increasing the power performance of a PV module.

**Solar Module Packaging: Polymeric Requirements and Selection** explores current and future opportunities in PV polymeric packaging, emphasizing how it can simultaneously reduce cost, increase weatherability, and improve a PV module's power. The book offers an insider's perspective on the manufacturing processes and needs of the solar industry and reveals opportunities for future material development and processing.

A broad survey of the polymeric packaging of solar cells, the text covers various classifications of polymers, their material properties, and optimal processing conditions. Taking a practical approach to material selection, it emphasizes industrial requirements for material development, such as cost reduction, increased material durability, improved module performance, and ease of processing. Addressing cost and profitability, the author examines the economics behind polymeric packaging and how it influences the selection process used by solar companies.

Suitable for nonspecialists in polymer science, the book provides a basic understanding of polymeric concepts, fundamental properties, and processing techniques commonly used in solar module packaging. It presents guidelines for using polymers in commercial PV modules as well as the tests required to establish confidence in the selection process.

### **From reader reviews:**

#### **Lisa Streeter:**

The reserve untitled Solar Module Packaging: Polymeric Requirements and Selection is the guide that recommended to you to see. You can see the quality of the reserve content that will be shown to an individual. The language that publisher use to explained their way of doing something is easily to understand. The copy writer was did a lot of exploration when write the book, so the information that they share to your account is absolutely accurate. You also could possibly get the e-book of Solar Module Packaging: Polymeric Requirements and Selection from the publisher to make you much more enjoy free time.

#### **Gregory Jones:**

This Solar Module Packaging: Polymeric Requirements and Selection is fresh way for you who has fascination to look for some information because it relief your hunger associated with. Getting deeper you on it getting knowledge more you know or you who still having tiny amount of digest in reading this Solar Module Packaging: Polymeric Requirements and Selection can be the light food to suit your needs because the information inside this specific book is easy to get by means of anyone. These books acquire itself in the form and that is reachable by anyone, yep I mean in the e-book form. People who think that in publication form make them feel drowsy even dizzy this publication is the answer. So there isn't any in reading a book especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss the idea! Just read this e-book kind for your better life and knowledge.

#### **Melinda Brown:**

Do you like reading a e-book? Confuse to looking for your selected book? Or your book seemed to be rare? Why so many question for the book? But virtually any people feel that they enjoy regarding reading. Some people likes reading, not only science book but novel and Solar Module Packaging: Polymeric Requirements and Selection or others sources were given expertise for you. After you know how the great a book, you feel would like to read more and more. Science publication was created for teacher or maybe students especially. Those guides are helping them to bring their knowledge. In different case, beside science reserve, any other book likes Solar Module Packaging: Polymeric Requirements and Selection to make your spare time far more colorful. Many types of book like this.

#### **Ana May:**

Reading a reserve make you to get more knowledge from the jawhorse. You can take knowledge and information originating from a book. Book is created or printed or created from each source that will filled update of news. Within this modern era like now, many ways to get information are available for you. From media social just like newspaper, magazines, science guide, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you hip to spend your spare time to spread out your book?

Or just searching for the Solar Module Packaging: Polymeric Requirements and Selection when you required it?
